

# Supply chain maturity

## Harnessing the power of data and AI

It took 30 years for the industry to get from Reactive Identification (Level 1) to Management by Exceptions (Level 3). Since technology refresh cycles are becoming rapidly compressed, Frost and Sullivan estimates that continued investment in AI/ML will spur the industry to reach Level 6 within the next seven years.

### Supply chain maturity model

### Survey of the top digital technologies being invested in over the next 3 years

Next  
**3**  
years

41% of respondents are planning to invest in AI/ML solutions

N= 75 customers across process and hybrids industry verticals. The survey was conducted in 2019.
