

A step forward in the age of artificial intelligence

Thanks to decades of breakthrough research in artificial intelligence (AI), machines can now analyze images, comprehend speech, interact in natural ways, and make predictions using data.

This has led to increased adoption amongst the world's leading enterprises and the creation of smarter, more productive businesses:

 Vision

+1M

developers are now using
Azure Cognitive Services

 Language

+60

languages now supported by
PowerPoint Translator live

 Speech

+35T

documents have
been processed by
machine reading

+300K

developers utilize
Azure Bot services

To learn more about how you can unlock the power of cloud-based artificial intelligence within your business, visit the [Microsoft Azure AI website](#).
