

Windows 10: Built for education

Unlock the power of learning

You want your students to be ready for any challenge. Why should you expect any less from your tech?

Windows 10 devices are affordable and support a variety of learning styles. Easy access to free Microsoft Office 365 Education, Microsoft Teams, and Learning Tools streamlines lesson planning and helps address the learning needs of every student. Free training resources for educators help them get the most from every device.

Starting at \$219, with touch and ink starting at \$299, Windows 10 devices are ruggedized to withstand the rigors of student life, with an eight-hour battery life so students can work a full day.
