

Integrate the data apps you're using with Teams

Bring the apps and services you love into Teams to create your organization's hub for data.

Teams has 500+ apps.

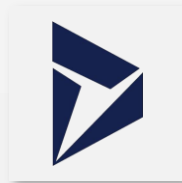

Find your favorite data apps or add your own

Power BI

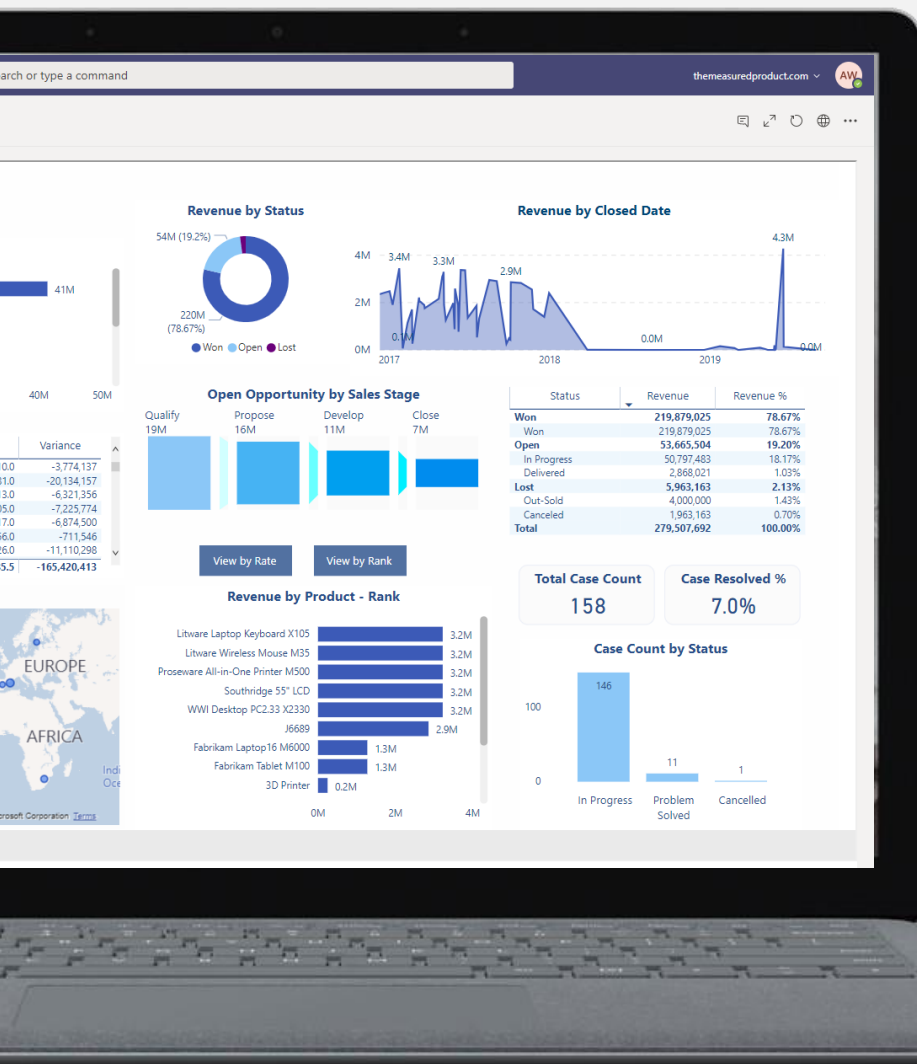

SharePoint

Dynamics 365

Excel

Apps let you do more with your data in Teams.

Think about the tools, files, and dashboards you already use. Many of them can be added right into Teams. And you find them right in Teams by going to the Teams app store.
