Microsoft

4 WAYS TO BUILD CYBER RESILIENCE

As you look to the future and reimagine the way you work, intelligent security can help your business to adapt at speed, build trust and empower your people to achieve more.

SIMPLIFY SECURITY WITH AN INTEGRATED PLATFORM

Safeguard your digital estate with an integrated security platform that uses automation and intelligence to support your cybersecurity teams.

Adapt to the new world of work and protect people, devices, apps, and data wherever they're located.

Zero Trust assumes breach, verifies explicitly and uses least-privilege access.

Remove silos to simplify management and improve performance.

87% OF RESPONDENTS SAY CLOUD COMPUTING ENABLES **BETTER AND MORE COST-EFFICIENT PROTECTION** OF THEIR ORGANISATION'S DATA.

PROTECT CRITICAL DATA AND SERVICES

Take strong steps to protect your data, privacy and critical infrastructure, using built-in security, AI and machine learning to identify and manage threats.

123% ROI on Azure Active Directory which manages identities, secures networks and safeguards data.

40% reduction in likelihood of a **data breach** when using Cloud App Security.

90% of alert fatigue reduced with AI, machine learning and automation.

8.2T threat signals analysed **daily** by Microsoft Security Graph.

ENABLE SECURE REMOTE WORK

Empower employees to work from anywhere with tools that have built-in security. Use a Zero Trust approach to protect and secure endpoints, infrastructure, apps and devices.

Use **multi-factor authentication** to prevent 99.9% of credential attacks.

Safeguard endpoints so employees can stay productive and secure on any device.

Windows Virtual Desktop enables remote access from non-work devices.

Enable Azure to collaborate securely with third parties and partners.

BUILD RESILIENT CYBERTEAMS

Nurture a people-first approach to security, where every individual is empowered to understand threats, implement best practices and minimise risk.

DIVERSITY AND INCLUSION POLICIES IMPACT YOUR BOTTOM LINE

DIVERSE TEAMS MAKE BETTER DECISIONS **87% OF THE TIME**

A TOP-TO-BOTTOM CYBERSECURITY CULTURE **IS MORE PRODUCTIVE, RESILIENT AND INNOVATIVE**

Together we can help you take an active, uncompromising approach to your security and risk management.
