

"We have seen a 10% improvement across the board—test scores, competencies, and concurrent enrollment participation. And, it is only our second quarter using Microsoft 365." - CIO, Alternative Education Campus

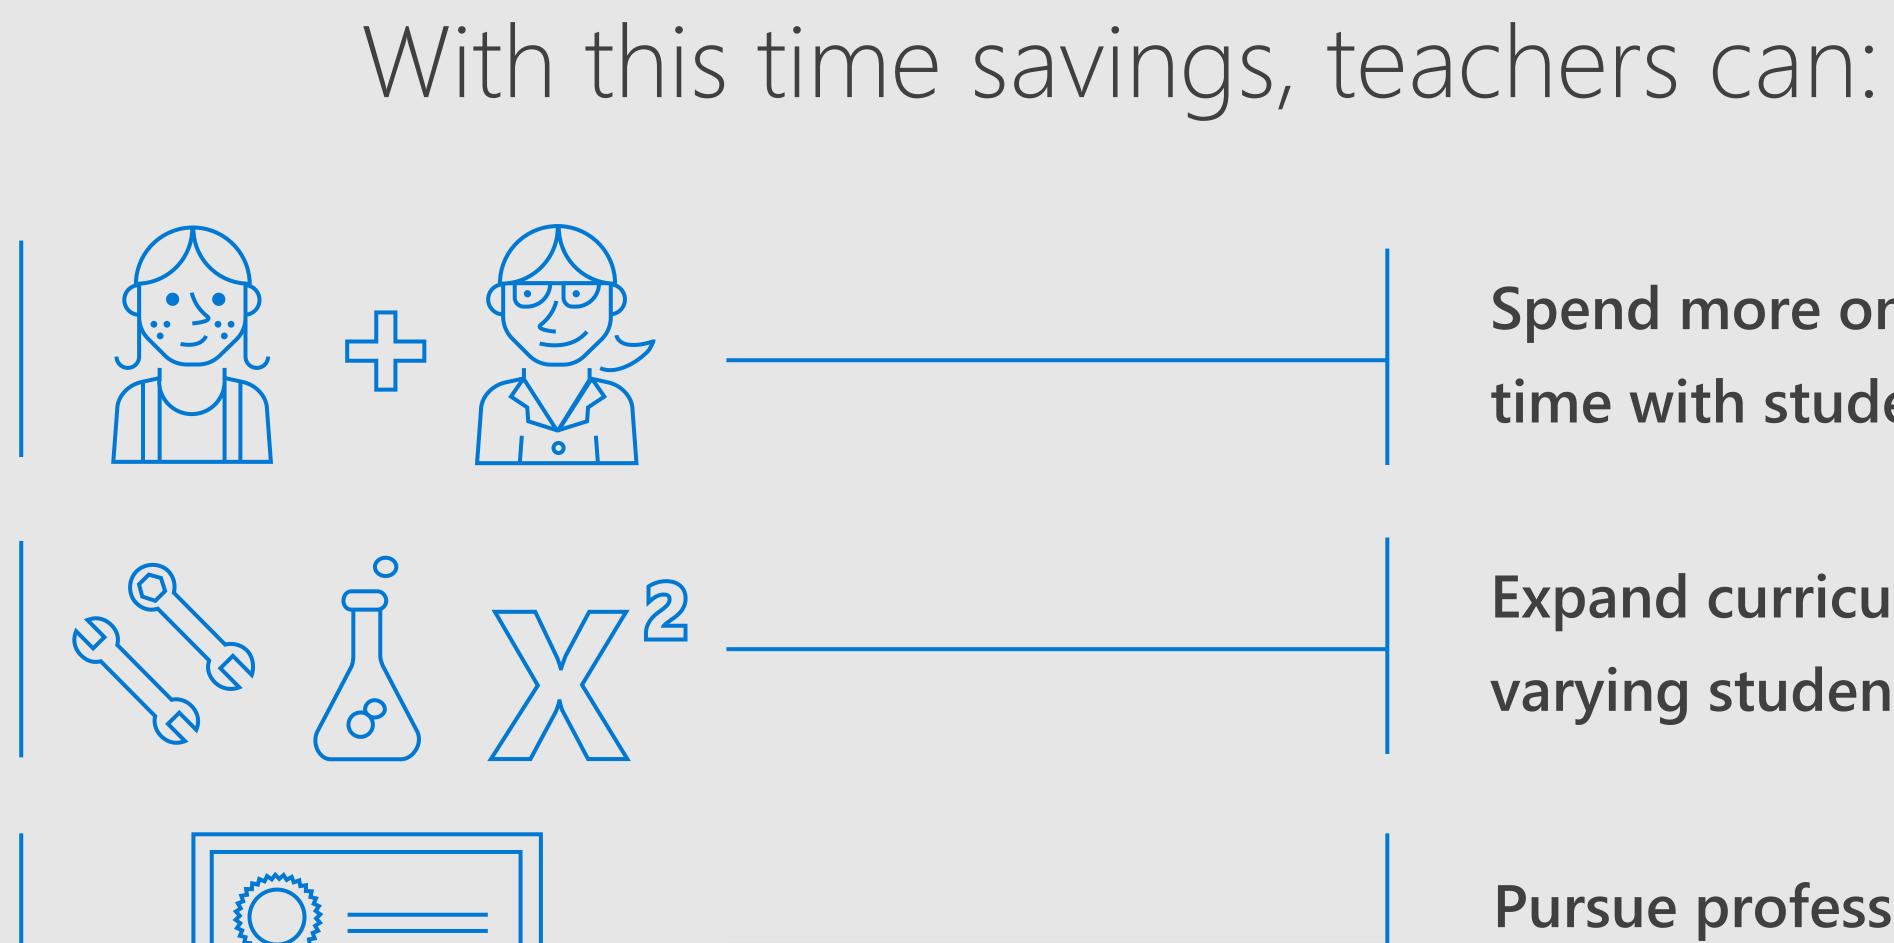

Forrester Research conducted interviews across US school districts

using Microsoft 365 Education. Here are the findings.

Teachers save time with Microsoft 365 Education

16 teaching hours saved per year

time with students **Expand curriculum to meet**

Spend more one-on-one

varying student needs

Pursue professional development

IT saves time with Microsoft 365 Education

reduction

in device setup time

Microsoft 365. The ease of management ... makes a huge difference in how we are better able to assist our students in learning." Director of technology,

"I encourage everyone to go to

public school district

devices are in use. This new approach eliminates in-class disruptions and increases student learning time.

Schools save money with

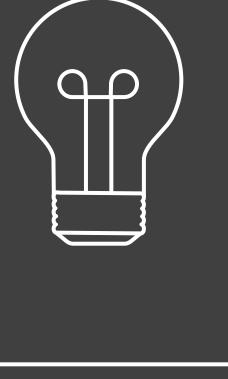

Microsoft 365 Education

With a seamless operating system, updates pause when

to invest in students

More money

outcomes

Better

learning

thousand saved every year with fewer storage and computing power needs

web conferencing and learning management solutions

thousand

saved per year by eliminating

million saved by choosing

system upgrade

Microsoft 365 Education

over an on-premises

million in IT costs

A large school district could save*

million in teacher time

*These figures are based on the Forrester Research findings that came from a composite school district with 60,000 students and 5,500 teachers.

that could go toward supporting

better learning outcomes

Unlock Limitless Learning

Every student deserves the opportunity to achieve more. Microsoft Education resources can help you support classrooms within budget so your teachers have more time

to focus on what's most important: the students.
