

# Modernize digital processes to improve profitability and ensure data security

**Reduce costs and streamline IT resources**

- Decrease your TCO and pay up to 84% less than AWS
- Realize up to a 406% ROI over on-premises and hosted solutions
- Reduce up to 80% in administration costs by offloading server/storage infrastructures
- Dramatically lower costs of managing databases
- Utilize leading price and performance on high-end storage

**Modernize by migrating to a flexible, open cloud**

- Go to market faster by leveraging a broad partner ecosystem
- Reach anyone, anywhere with 54 regions (more than any other cloud provider)
- Preserve data residency with more scalability
- Connect to cloud anywhere, across devices

**Innovate new apps or manage existing server apps with unlimited flexibility**

- Scale on the fly when demand for your app grows
- Improve app delivery time by 50% by removing wait times on servers
- Collect an unprecedented volume of data

**Ensure data protection, security, and business continuity**

- Prevent losing valuable data with backup and site recovery
- Safeguard your business against scaled attacks with unrivaled security monitoring and threat protection
- Utilize the most comprehensive set of compliance and security offerings
