

# Securely harness the power of the cloud with **Azure Advanced Threat Protection**

## Get real-time security at enterprise scale

Use the power and scale of the cloud to help safeguard against threats that are increasing in frequency, severity, and sophistication.

## Detect threats quickly

Azure Advanced Threat Protection monitors behavior of users, devices, and resources and detects anomalies right away.

## Stay focused on what's important

Get a clear, efficient, and convenient feed that surfaces the right issues on a simple attack timeline.

## Why trust Microsoft with your security?

Microsoft invests more than **USD \$1 billion annually** on cybersecurity research and development

Microsoft employs more than **3,500 security experts** completely dedicated to data security and privacy

Azure has **more compliance certifications** than any other cloud provider
