

Access the latest Microsoft technology with Surface Device-as-a-Service

Get the hardware, software, and services you need without paying upfront.

Out with the old, in with the new

Give your team the best experience by upgrading to Device-as-a-Service (DaaS), a subscription-based offering that bundles premium Microsoft Surface devices with the latest software, accessories, and services. Surface DaaS helps you manage several upgrades simultaneously, all under one monthly bill—reducing upfront investment and increasing cash flow. Leave traditional procurement behind. With Surface DaaS, upgrades are more frequent and cost-effective.

Traditional procurement:

- Large capital investments are required upfront
- Overdue upgrade cycles impact productivity and security
- Large internal IT costs and processes

Device-as-a-Service:

- Access to the latest software and hardware
- Reduced upfront costs
- Increased predictability and scalability
- Enterprise security
- Reduced risks associated with owning the technology
- Flexible subscription and financing options
- Simplification of Windows 10 migration

The Surface DaaS solution

- Focus on employee productivity and collaboration
- Implement hardware initiatives without waiting for funding
- Provide employees with an integrated experience that combines the latest software and hardware
- Tailor a solution to fit your business needs
